

TOP RUNNING CRANE INFORMATION

Form F00116 Revised Dec. 13

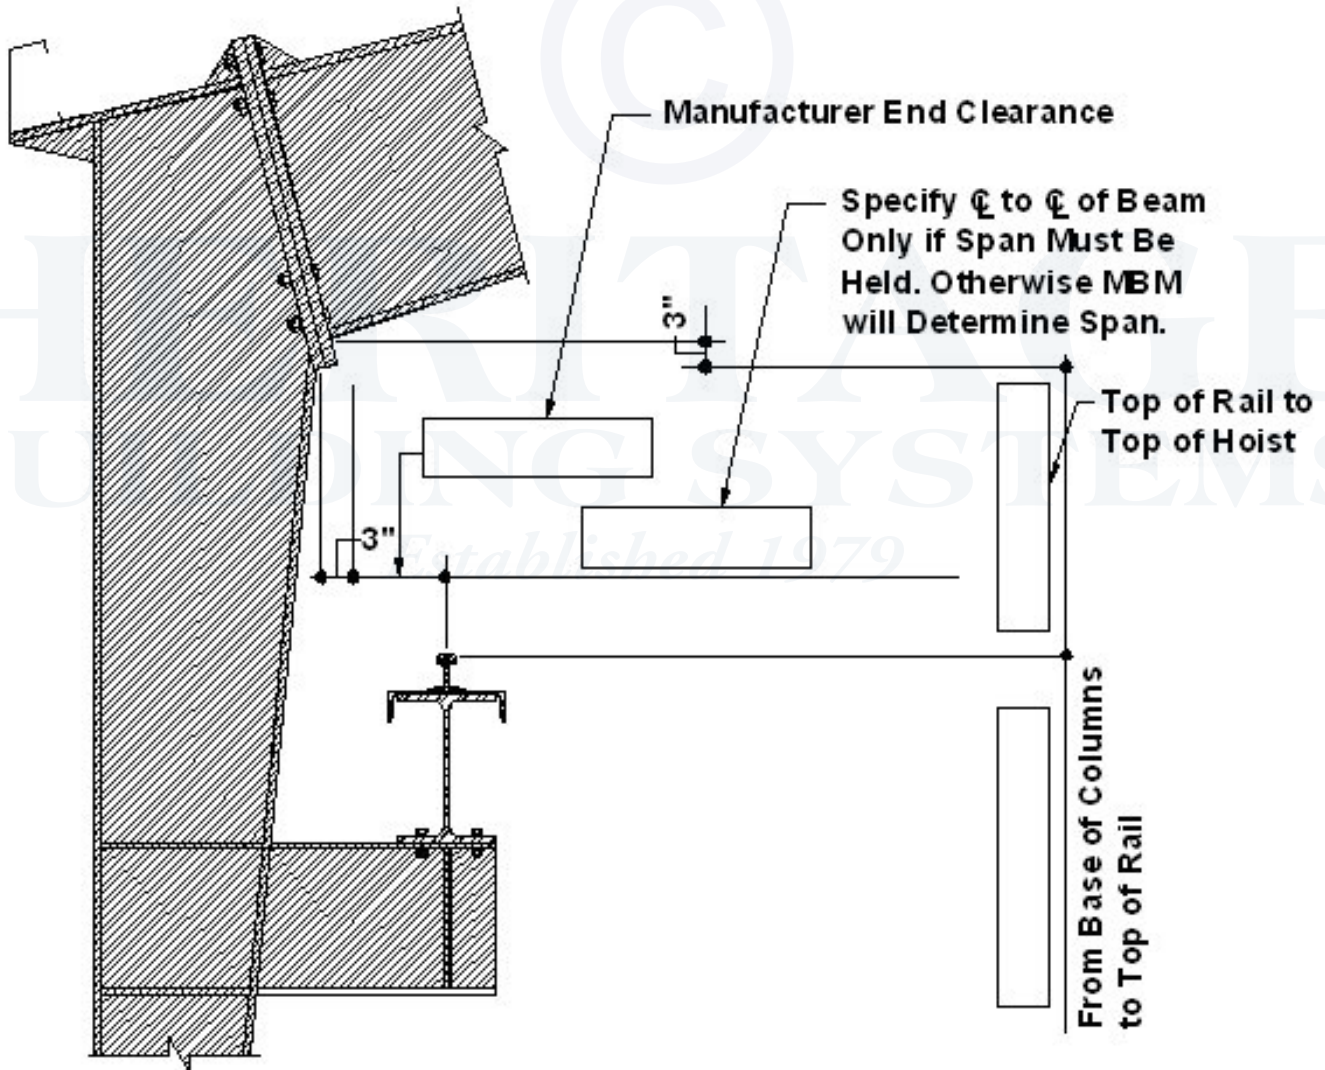

Job (Quote) No. : _____

Page _____ of _____

Builder/Customer: _____

Date: _____

The following crane information is required by the Engineering and Estimating Departments to quote buildings with cranes. Please fill in all blanks for type of crane required or indicate "unknown", "minimum", etc. The Engineering Department must check the requirements against the actual building clearances. Since some building eave heights and widths are already specified and other requirements are to be met, please indicate the more important. Metal Building Manufacturer will assume Kranco Specifications if specific crane data is not available.
